PosterGrip® Frame User Guide

Wall-Mounting Instructions

Flip open side rails on PosterGrip frame.

1

Your frame can be hung either vertically...
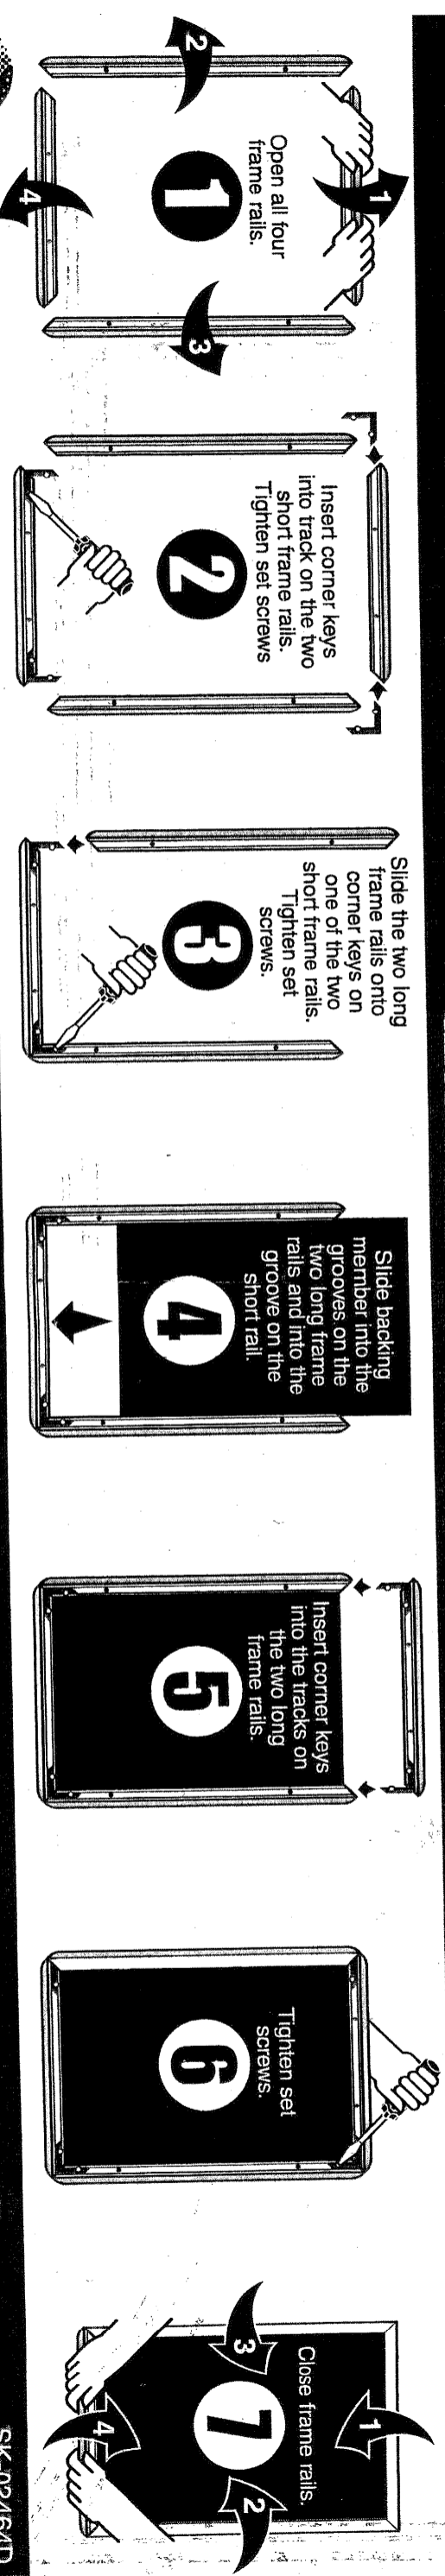

...or horizontally.

2

Position frame on wall. Mark wall.

3

Drill mounting holes.

4

Insert anchors into holes and tap in place.

5

Place frame against the wall, line the mounting holes up with the anchors and screw in place.

6

Close frame rails.

Pole-Mounting Instructions

Flip open top and bottom frame rails

1

Attach mounting brackets (top and bottom - note their positions) to frame by sliding splice plates (located in...

2

...channel on front side of frame) to line up holes with holes on frame and mounting bracket. Secure with Thread straps through brackets washers and screws. and around pole and into clamps.

3

4

Lift frame to desired height.

5

Tighten clamps securely.

6

Cut off excess strap.

7

For applications requiring two frames - use one strap to secure both top mounting brackets and one strap to secure both bottom mounting brackets.

Knock-Down Frame Assembly

Open all four frame rails.

1

2

Insert corner keys into track on the two short frame rails. Tighten set screws.

3

Slide the two long frame rails onto corner keys on one of the two short frame rails. Tighten set screws.

4

Slide backing member into the grooves on the two long frame rails and into the groove on the short rail.

5

Insert corner keys into the tracks on the two long frame rails.

6

Tighten set screws.
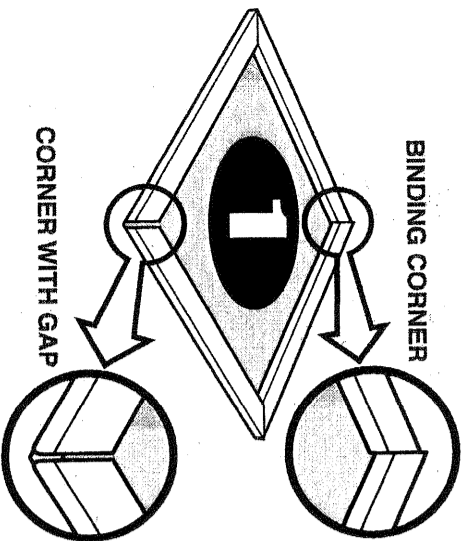

7

Close frame rails.
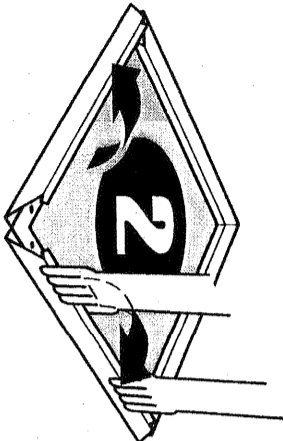

PosterGrip® Frame User Guide

PosterGrip® Frame Miter Alignment

1 After receiving your assembled or assembling your knock-down frame, **Inspect corners for binding or gaps.**
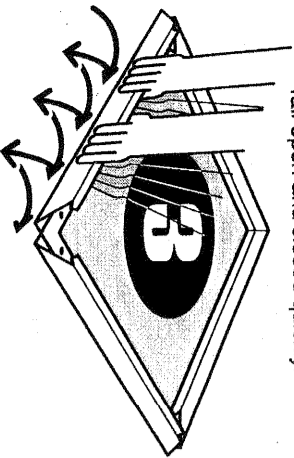

BINDING CORNER

CORNER WITH GAP

**2** If there are gaps or corners that bind, open the 2 adjacent frame rails that need adjustment.

3 Apply force in the direction you want the frame rail to move while rocking the rail open and closed quickly.
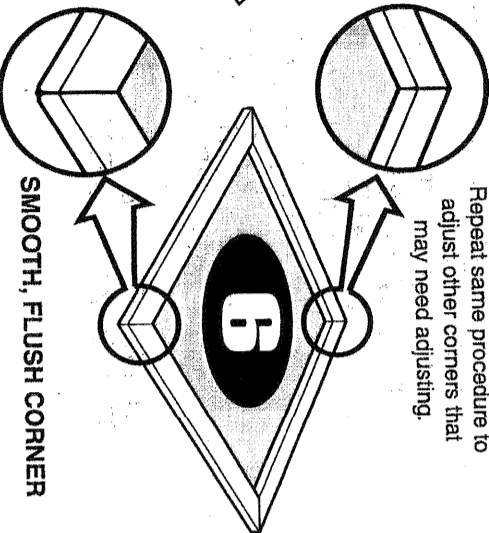

4 Repeat on adjacent rail.

5 Close frame rails and inspect corner. Repeat steps 2,3 and 4 until corners meet without gapping or binding.
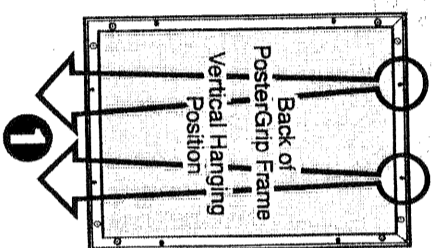

6 Repeat same procedure to adjust other corners that may need adjusting.

SMOOTH, FLUSH CORNER

Attaching D-Ring Hanging Clips
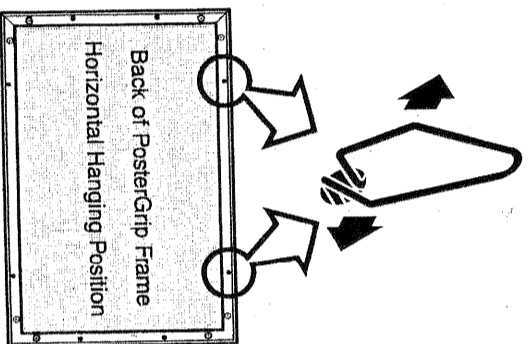

D-rings are an optional accessory.

Back of PosterGrip Frame Vertical Hanging Position

1 Squeeze D-rings together.

2 Insert into appropriate holes.

3 Release.

Back of PosterGrip Frame Horizontal Hanging Position
