

PosterGrip® Lightbox

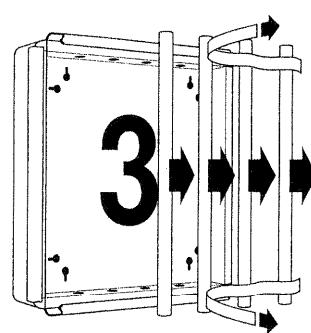

Open PosterGrip® frame rails.

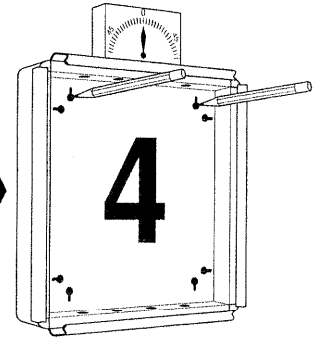

Remove clear face and peel off protective coating. Pull diffuser from top corner and carefully bend to remove.

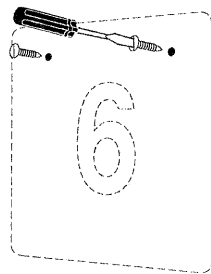

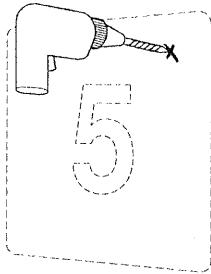

Remove tape and bulbs before marking (vertically or horizontally).

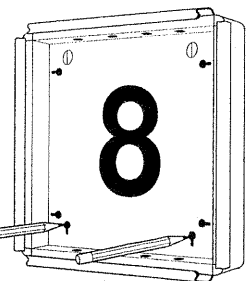

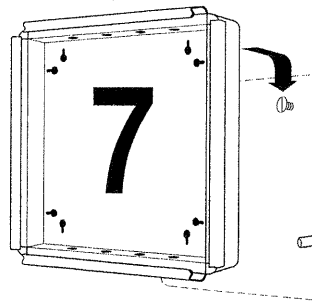

Mark upper mounting holes.

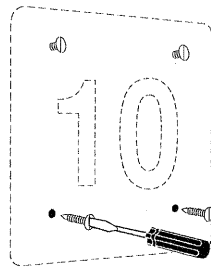

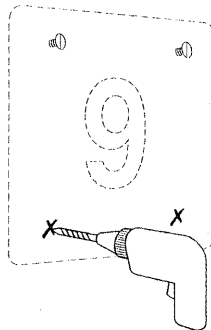

Drill holes in wall and attach appropriate hardware. (Hardware not included).

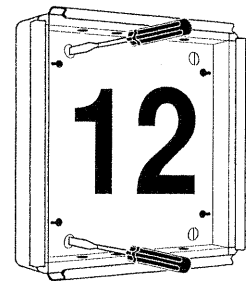

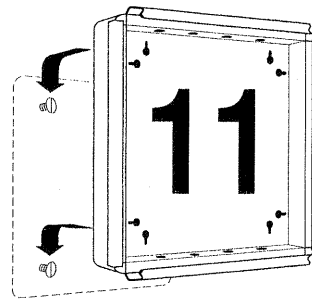

Hang lightbox on wall and mark lower mounting holes.

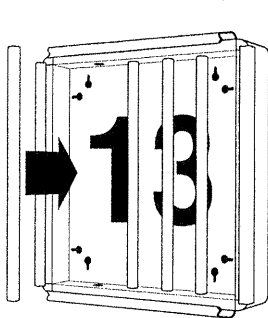

Remove lightbox, drill holes and attach appropriate mounting hardware to wall.

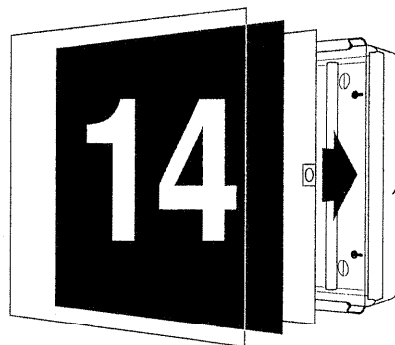

Re-hang lightbox and secure to wall.

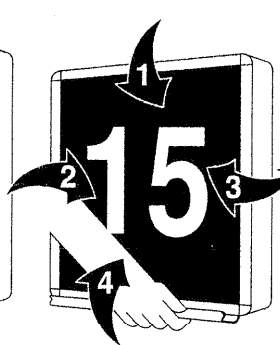

Replace fluorescent lamps.

Replace diffuser. Insert transparency & overlay.

Close PosterGrip® frame rails.

Note: Before installation, purchase appropriate wall-mounting hardware. Lamp replacement specifications are listed on a decal located inside box. Lamps available at most lighting shops or thru MDI.
